### Case Study Test Workshop

吴秀梅校院长亲授 医案考试学习班

**November 9 & January 11 (10am-5pm)**

The Toronto School of Traditional Chinese Medicine (TSTCM) not only offers high standard, high quality systematic and comprehensive professional program to train competent and successful acupuncturists and TCM practitioners, we also offer a series of courses to guide and to assist CTCMPAO registered practitioners who wish to upgrade their knowledge and skills or to pass the examinations.

This workshops will help grandparented R.Ac and R.TCMP to better prepare for the Case Study Assessment Test, and new TCMA graduates to prepare for the Pan-Canadian Examinations while reviewing, enhancing and consolidating your knowledge and understanding of TCMA. Sample cases will be provided, practiced and discussed during the workshop.

**Registration and Fee:**     \$160 / Session if registered 2 weeks prior to the workshop  
                                      \$200 / Session there after  
                                      Registration is confirmed only upon receipt of full payment  
                                      Please submit the completed registration form via email and  
                                      Call to make payment with credit card  
                                      50% refund if withdraw two weeks before the workshop  
                                      No refund thereafter; No refund for late registration

**President Mary Xiumei Wu:     R.TCMP & R.AC.**

Mary completed her medical degree in TCM with top honor from Shandong University of TCM. She has over 30 years of teaching, practicing and research experience. She has written and passed the US - NCCAOM and BC - CTCMA examinations herself, and has prepared hundreds of examination questions while she was teaching. Many TSTCM graduates have passed the US and BC examinations as well as the first Pan-Canadian Examinations. Mary has been actively involved in the regulation process and she understands the standards and competency required for the profession. Her knowledge, experience and skills shared during the workshop will be invaluable and her well structured, step by step teaching will not only be informative, but also enjoyable.
