Membership Benefits

The CMAAC provides effective representation on behalf of more than 750 practicing TCM/A practitioners across Canada. Some of the roles of the CMAAC include:

- ✓ Negotiating group discounts for malpractice, liability, and other insurances
- ✓ Providing Continuing Education Seminars and Workshops (e.g. bilingual seminars and information sessions with a wide range of presenters such as: TCM/A practitioners, the World Wildlife Fund, Toronto Public Health, Canadian Healthcare Anti-Fraud Association, and the Privacy Commissioner)
- ✓ Professional Advocacy via government relations and communication services and TCM/A Promotion Campaigns
- ✓ CMAAC Newsletters and Website which provide highlights of activities members of the CMAAC and the TCM/A community
- ✓ CMAAC E-Newsletters has additional features such as the latest updates of the CMAAC and TCM/A community in Canada and listings of upcoming Continuing Education opportunities
- ✓ Advertising and Job Posting - through our CMAAC website, newsletters, and e-newsletters, and social medias such as Facebook and Twitter
- ✓ Providing member contacts and assistance from a representative in each province in Canada

About CMAAC

The Chinese Medicine and Acupuncture Association of Canada was federally incorporated in 1983 with the goal of promoting the profession of TCM and Acupuncture (TCM/A) across Canada. There are eight CMAAC Chapter offices across Canada. In 1987, the CMAAC became a member society of the World Federation of Acupuncture-Moxibustion Societies (WFAS). WFAS is the only TCM and Acupuncture Society to be fully recognized by the World Health Organization.

Established as a nonprofit charitable association to lobby the government for regulation of TCM and Acupuncture from the beginning, the CMAAC has played a vital role in the development and promotion of TCM/A across Canada. The CMAAC has fostered alliances with the provincial and federal levels of government and assists the various Ministries of Health on many projects. The CMAAC has submitted applications for the regulation of TCM/A in Nova Scotia, Manitoba, British Columbia, Saskatchewan, Newfoundland, and Ontario.

CMAAC objectives include:

- ✓ uniting practitioners of Eastern and Western Medicine,
- ✓ establishing high standards of education and training for TCM/A practitioners,
- ✓ promoting TCM and Acupuncture
- ✓ attending international conferences to participate in the scientific exchange of research
- ✓ acting as an educational vehicle for the public, and
- ✓ Working in partnership with organizations such as the World Wildlife Fund and the Canadian Health Care Anti-Fraud Association.
